

## AMS Region Connectivity Webinars from Marvell For HPE Channel Partners

As you start deploying next-generation Servers and Storage solutions from HPE to your clients, connectivity between these devices becomes critical. Unfortunately, there isn't a whole lot of training provided by HPE to keep you up to date on the latest connectivity technologies.

That's why we are inviting you to attend the **Marvell Connectivity Webinar Series**, exclusively for HPE AMS Channel Partners. In these short, 30-minute sessions, you will receive the latest information pertaining to server and storage connectivity for HPE solutions from the I/O experts on the Marvell HPE OEM Team. This is an easy way for you to stay in the know, get your questions answered and become an even better trusted advisor for your clients. Just click the links below to register today.

Members of the [Marvell Follow the Wire Rewards Program](#) from the AMS region will receive **500 points** for each webinar they attend. Must attend at least 80% of the session to receive credit, and points are awarded for only one regional webinar per month. If you attend multiple regional events, points will be awarded only for the first one attended.

**All webinars in this series are at 8AM Pacific / 11AM Eastern time zones.**

November 17, 2022 – [Why Marvell for HPE Customers](#)

December 8, 2022 – [64Gb Fibre Channel and Futures](#)
